1. Reasons for the Revision of the Dividend Forecast

The Company has adopted a basic policy of paying dividends which states that the Company pays shareholders a stable dividend over the long term while increasing its dividends through its medium- and long-term profit growth. Reflecting the policy, for the period of the GC2024 Mid-Term Management Strategy (from the fiscal year ended March 31, 2023 to the fiscal year ending March 31, 2025), the Company adopts a progressive dividend policy, aiming to increase the annual dividend in response to medium- and long-term profit growth.

As the Company announced in the “Consolidated Financial Results for the Fiscal Year Ended March 31, 2024”, profit attributable to owners of the parent for the fiscal year ended March 31, 2024 amounted to 471.4 billion yen.
