For the target persons and overview of the said compensation, please refer to “Overview of the Corporation’s Policy to Determine the Remuneration And Other Payments for Directors” at the bottom of this report.

Until FY2022

The remuneration of Directors other than Outside Directors (“Eligible Directors”) consists of basic remuneration, which is a fixed amount that is in accordance with the roles of the Eligible Directors, performance-linked remuneration, which is linked to consolidated business results in the previous fiscal year, additional pay and personal evaluation pay, and shares with restriction on transfer subject to market-capitalization-based exercisability conditions (“Market Capitalization-linked Performance Share Units”). Form of payment consists of cash, shares with restriction on transfer (“Restricted Stock”) and Market Capitalization-linked Performance Share Units.

Performance based compensation:

If the “sum of 50% of consolidated net income (profit attributable to the owners of the parent) and 50% of core operating cash flow in the previous business year” is below 100 billion yen, performance-linked remuneration is made 0, and if it is 100 billion yen or more, it is made an amount calculated by multiplying the amount of base annual compensation by a multiplication factor that proportionally increases (an increase of approximately 2% per increase of 5 billion yen). In order to achieve a balanced format for compensation that is linked with the Corporation’s performance, up to FY2018, only consolidated net income (profit attributable to owners of the parent) for the previous business year was used as an indicator. From FY2019 the “sum of 50% of consolidated net income (profit attributable to owners of the parent) and 50% of core operating cash flow in the previous business year” is used an indicator, and the aim of this is to further strengthen alignment between the compensation system and the management targets of the previous Mid-Term Management Strategy “GC2021.” As for consolidated net income (profit attributable to owners of the parent) and core operating cash flow in FY2021, which were used for the calculation of performance-linked remuneration in FY2022, the target value of each at the beginning of the year (announced on May 6, 2021) was 230 billion yen and 350 billion yen. The actual value was 424.3 billion yen and 570.5 billion yen.

Stock-Based Compensation:

Beginning in FY2021, the Corporation has introduced Restricted Stock and Market Capitalization-linked Performance Share Units to Eligible Directors. The purpose of this is to give the Eligible Directors an incentive to work to sustainably enhance the corporate value of the Corporation in the medium to long term, thereby enhancing future market value, and promoting greater value sharing with shareholders.

1. Restricted Stock

20% of the base annual remuneration and performance-based compensation is granted as Restricted Stock to the Eligible Directors with a certain no transfer period. An Eligible Director may not transfer, create security interest over, or otherwise dispose of the Corporation’s common shares which were allotted to them under the Allotment Agreement during the period from the day the shares were allotted to them under the Allotment Agreement until immediately after the time the Eligible Director resigns or retires from their position as Director, Executive Officer, or other officer or employee of the Corporation or the Corporation’s subsidiary that the Corporation’s Board of Directors designates. The purpose of the no transfer period is to promote greater value sharing with shareholders in the medium to long term.

2. Market Capitalization-linked Performance Share Units

Up to 1.5 times an amount equivalent to 10% of base annual compensation is allotted as Market Capitalization-linked Performance Share Units on top of the base compensation. Market Capitalization-linked Performance Share Units refers to the Corporation's common shares that the Corporation will issue to Eligible Directors (or dispose of) in accordance with the achievement of targets linked to market value growth rate and other performance indicators predetermined by the Corporation's Board of Directors.

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods
--

The maximum total remuneration shall be determined for all Directors by resolution at a General Meeting of Shareholders. The Governance and Remuneration Committee chaired by an Outside Director/Audit & Supervisory Board Member, with the majority of its members consisting of Outside Directors/Audit & Supervisory Board Members, deliberates on the policies for compensation decisions and the appropriateness of the compensation levels, and provides reports to the Board of Directors. The remuneration amount is determined by resolution of the Board of Directors.

From FY2023

Please refer to “Overview of the Corporation's Policy to Determine the Remuneration And Other Payments for Directors” at the bottom of this report.

Until FY2022

The remuneration of Directors other than Outside Directors consists of basic remuneration, which is a fixed amount that is in accordance with the roles of the Directors, performance-linked remuneration, which is linked to consolidated business results in the previous fiscal year, additional pay, and personal evaluation pay, Market Capitalization-linked Performance Share Units. Additional Pay consists of director bonuses and representative director bonuses, and personal evaluation pay consists of an organization performance evaluation and a qualitative evaluation. For the organization performance evaluation, the evaluation item is whether the consolidated net income target and the core operating cash flow target are achieved or not. The amount in which the organization performance evaluation is reflected is calculated by multiplying base annual compensation by the ratio determined by the Board of Directors corresponding to the achievement/non achievement of the target. Qualitative evaluation takes into consideration business results in the fiscal year, medium- to long-term contributions (such as efforts and initiatives for new value creation toward the future) and other such measures. The amount in which qualitative evaluation is reflected is calculated by multiplying base annual compensation by a ratio which has been determined by the Board of Directors to reflect the qualitative evaluation. Concerning the individuals' evaluation-based compensation, the President who is the chief executive officer is judged to be most suitable for conducting qualitative evaluation and the Board of Directors has given President & CEO Masumi Kakinoki the authority for the said evaluation (the "qualitative evaluation by the President"). In order to ensure appropriate exercise of this authority, the ratio to reflect the qualitative evaluation by the President is within the range determined by the Board of Directors.

The performance-based compensation is described in the above Incentive Policies for Directors, all of whom are independent from business execution, consists entirely of base annual compensation, and does not include performance-linked remuneration.

Total of Remuneration And Other Payments for Directors and Audit & Supervisory Board Members in FY2022

(a) The total of remuneration and other payments for Directors and Audit & Supervisory Board Members in FY2022 are as follows:

Category		Number of recipients	Total amount of payment (Millions of yen)	Breakdown (Millions of yen)				
				Basic compensation*	Performance-based compensation*	Restricted Stock	Market Capitalization-linked Performance Share Units	[Former plan] Stock-compensation-type stock options subject to market-capitalization-based exercisability conditions
Directors	Internal Directors	11	1,136	295	529	170	93	50
	Outside Directors	7	104	104	—	—	—	—
	Total	18	1,240	399	529	170	93	50
Audit & Supervisory Board Members	Internal Audit & Supervisory Board Members	2	80	80	—	—	—	—
	Outside Audit & Supervisory Board Members	3	51	51	—	—	—	—
	Total	5	131	131	—	—	—	—

* The amounts presented for “basic compensation” and “performance-based compensation” are the total amounts of cash compensation and do not include “Restricted Stock.”

Note 1. The amounts below 1 million yen are rounded off.

Note 2. “Basic compensation” includes “bonuses” and “individuals’ evaluation-based compensation.”

Note 3. The above-stated number of recipients includes 8 Directors (including 1 Outside Director) who retired by the last day of FY2022. As of March 31, 2023, the Corporation had 10 Directors (including 6 Outside Directors) and 5 Audit & Supervisory Board Members (including 3 Outside Audit & Supervisory Board Members). Directors’ total amount of payment above includes the amount charged to expense, etc., during FY2022 regarding Market Capitalization-linked Performance Share Units that will be allocated in FY2024 or later and “[Former plan] stock-compensation-type stock options subject to market capitalization-based exercisability conditions” that was allocated in FY2019, as listed in Notes 6 and 7 below.

Note 4. The Corporation will revise performance-based compensation from FY2023. In the performance-based compensation before the revision of the compensation plan, performance evaluation was based on business performance in the previous business year, but will be changed to a manner in which compensation based on performance evaluation in the fiscal year corresponding to the period of execution of duties will be paid in a lump-sum after the close of the relevant fiscal year as performance-based compensation, aiming to match the periods of execution of duties and performance evaluation. As a transitional measure for the revision of the said plan, the difference that compensation for FY2023 (based on the business performance in FY2022), which is calculated by a calculation method of performance-based compensation before the revision (including the amount that will be paid by Restricted Stock), exceeds the compensation for FY2022 (based on the business performance in FY2021) will be

additionally paid as compensation for FY2022 by August 2023, within the approved total amount of remuneration up to a maximum of 1,100 million yen per year (including a maximum of 120 million yen for Outside Directors, and excluding employee salaries paid to Directors who concurrently serve as employees) as resolved at the 96th Ordinary General Meeting of Shareholders held on June 19, 2020. The above-stated performance-based compensation amounts include the said compensation amounts. The Governance and Remuneration Committee has deliberated appropriateness and reasonableness of the said transitional measure, and provided reports to the Board of Directors for its determination.

Note 5. The Corporation allocates “Restricted Stock” to Directors (excluding Outside Directors) as non-monetary compensation. The above-stated amounts are the amounts charged to expenses during FY2022. During FY2022, based on the resolution by the Board of Directors on June 24, 2022, 128,455 shares of common stock of the Corporation were issued to 4 Directors (excluding Outside Directors) by setting a no transfer period.

Note 6. The Corporation allocates “Market Capitalization-linked Performance Share Units” to Directors (excluding Outside Directors) as non-monetary compensation. The above-stated amounts are the amounts charged to expenses during FY2022 by calculating the estimated amount of monetary remuneration claims corresponding to the estimated number of shares to be granted in FY2024 and FY2025. This compensation plan was introduced in FY2021, and the first evaluation period will end in July 2024. Therefore, there are no results for FY2022 regarding the performance indicators.

Note 7. “[Former plan] stock-compensation-type stock options subject to market-capitalization-based exercisability conditions” was non-monetary compensation allocated as the remuneration of FY2019. It is a stock acquisition right of which the number of exercisable shares will be determined in accordance with the growth rate of the market-capitalization-based exercisability conditions during three years of the evaluation period after the grant. The above-stated amount is the amount charged to expenses during FY2022 for the stock acquisition rights of which the exercisable number was confirmed during FY2022 after three years of the evaluation period. The actual record of the Corporation’s growth rate of the market-capitalization-based exercisability conditions used to calculate the number of exercisable stock acquisition rights for stock-compensation-type stock options subject to the market-capitalization-based exercisability conditions of which the evaluation period is completed during FY2022 is 183%. After its introduction in FY2019, the remuneration system was abolished, excluding those already granted due to the introduction of Market Capitalization-linked Performance Share Units in FY2021.

Note 8. The agenda to abolish the retirement remuneration plan at the close of the 83rd Ordinary General Meeting of Shareholders held on June 22, 2007, and make a final payment of retirement remuneration was duly resolved. In accordance with the resolution, the Corporation decided to pay retirement remuneration to each Director who is eligible to receive the final payment either at the time of retirement as Director or at the time of retirement as Executive Officer, whichever is later, and to each Audit & Supervisory Board Member who is eligible to receive the final payment at the time of retirement as Audit & Supervisory Board Member. Regarding Directors/Audit & Supervisory Board Members eligible to receive a final payment in relation to the abolition of the retirement remuneration plan, no retirement remuneration was paid in FY2022.

(b) Individuals to whom the total amount of compensation paid exceeded 100 million yen in FY2022 are as follows:

(Millions of yen)

Name	Category	Total amount of payment	Breakdown				
			Basic compensation	Performance-based compensation	Restricted Stock	Market Capitalization-linked Performance Share Units	[Former plan] Stock-compensation-type stock options subject to market-capitalization-based exercisability conditions

The number of allotted shares fluctuates within the range between 0% and 150% of the number of shares corresponding to the standard unit according to the magnitude of achievement of relative TSR. <ul style="list-style-type: none"> 1) If relative TSR is 150% or above: 150% 2) If relative TSR is 50% or above and below 150%: Same percentage as relative TSR 3) If relative TSR is below 50%: 0% <p>Note, however, that if the Corporation's TSR is 100% or below, the maximum shall be 100% even when the relative TSR is 100% or above.</p>	•	•	-

Note 1. Remuneration and other payments for the Chairman of the Board consist of the monthly remuneration as the basic compensation and the medium- and long-term incentive remuneration, considering that the Chairman of the Board is in the position to substantially contribute to the enhancement of corporate value over the medium to long term through leveraging the business expertise gained through managing the Corporation on supervision.

Note 2. Remuneration and other payments for Outside Directors consist entirely of the monthly remuneration as the basic compensation (including remuneration for responsibilities as the chairperson, member, etc., of each respective committee), considering that Outside Directors are in the position to supervise management with independence.

Note 3. The Executive Officer & Chief Operating Officer of business division is eligible to receive the individuals' evaluation-based compensation based on the organization's performance evaluation, and currently there is no Executive Director eligible for the payment.

Note 4. Short-term incentive remuneration will be paid in a lump sum at the end of each fiscal year.

3. Remuneration levels and composition ratio

To ensure that remuneration levels of Directors are competitive so as to secure and maintain excellent human capital, the remuneration levels are examined by comparing them with objective research data on remuneration provided by outside specialized organizations and other sources to determine the appropriate remuneration levels.

As for the composition ratio of remuneration and other payments, it shall focus on the medium- and long-term improvement of corporate value by increasing the composition ratio of the medium- and long-term incentive remuneration. For the President & CEO, its composition ratio of monthly remuneration/the short-term incentive

remuneration/the medium- and long-term incentive remuneration shall be set as 1:1:1 when consolidated net profit is 400 billion yen and core operating cash flow is 500 billion yen. For other internal Directors, based on the remuneration composition ratio of the President and CEO, the Corporation shall set up the ratio considering the role and responsibilities of each position.

[Composition of remuneration for President and CEO]

Consolidated net profit	170 billion yen or below	400 billion yen	700 billion yen or below
Core operating cash flow	270 billion yen or below	500 billion yen	800 billion yen or below

Note: Excluding individuals' evaluation-based compensation and when the payment coefficient of TSR-linked Performance Share Units is 100%.

4. Malus and Clawback

The short-term and the medium- and long-term incentive remuneration shall be the subject of the clauses that allow the Corporation to reduce or cancel the remuneration (Malus) and request the return of the paid remuneration (Clawback) based on the resolution of the Board of Directors when there was an adjustment of financial results after an announcement due to a significant revision of financial statements or there was a significant violation or breach of internal rules by an officer.

5. Method to determine the remuneration and other payments for individual Directors

As for the policy to determine the remuneration and other payments for Directors (including the method to determine individual payments. Hereinafter referred to as the "Determination Policy"), the Governance and Remuneration Committee chaired by an Outside Director with the majority of its members consisting of independent Outside Directors/Audit & Supervisory Board Members deliberates on the Determination Policy, including the appropriateness of the remuneration levels, and provides reports to the Board of Directors for its determination of the Policy.

As for the determination of individual payments for Directors, the Governance and Remuneration Committee confirms the conformity to the Determination Policy and provides reports. Within the range of the maximum amount of remuneration resolved at a General Meeting of Shareholders, the payments are resolved at a meeting of the Board of Directors. However, as for the individual evaluation remuneration of the short-term incentive, the determination of payment for individual quantitative evaluation is commissioned to the President because it is judged that the person at the head of business execution is the most appropriate person. To improve the objectiveness, fairness and transparency, as for the amounts to be paid, the Governance and Remuneration Committee shall confirm that the evaluation has been conducted within the scope commissioned by the Board of Directors, and report them to the Board of Directors.

(Supplementary matter)

The process regarding remuneration for Executive Officers who do not concurrently serve as Director is the same remuneration framework and determination process as those for Directors.

1. Overview of Performance-based compensation

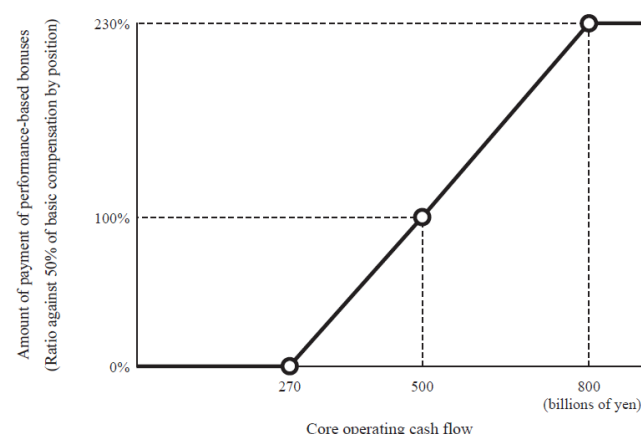

Performance-based compensation is a monetary compensation granted to the Corporation's eligible Executive Directors, the amount of which is calculated based on the evaluation indicators of each fiscal year. The evaluation indicators shall be consolidated net profit (profit attributable to owners of the parent) and core operating cash flow, which are important KPIs for each fiscal year. The amount is calculated using the actual values of the coefficient by position and the evaluation indicators, and it fluctuates within the range between 0% and 230% of the basic compensation by position. It will be paid in a lump sum at the end of each fiscal year.

[Performance-based bonuses / Incentive curve]

<Amount of payment of performance-based bonuses according to the results of consolidated net profit>

<Amount of payment of performance-based bonuses according to the core operating cash flow>

2. Overview of Restricted Stock

The Corporation's common stock of the number suitable to the standard amount determined for each position is allotted to the Eligible Directors every year with restriction on transfer. The Eligible Directors will receive the issue

or disposition of the shares in exchange for a contribution in kind of all of the monetary remuneration claims to be paid by the Corporation. In addition, the grant of the shares is subject to the execution of an allotment agreement between the Corporation and the Eligible Directors, which contains the terms and conditions for free acquisition by the Corporation, etc., and the shares granted are subject to a transfer restriction period from the date of stock allotment until the retirement from a position of Director and Executive Officer or other positions predefined by the Board of Directors of the Corporation or the resignation from the Corporation.

3. Overview of TSR-linked Performance Share Units

The plan of TSR-linked Performance Share Units grants to the Eligible Directors a number of reference units equivalent to the reference amounts separately determined for each position each year, and according to the degree of achievement of the relative TSR over a three-year period (the “Evaluation Period”), grants thereto after the end of the Evaluation Period shares of common stock of the Corporation for which a certain transfer restriction period is provided. The Eligible Directors will receive the issue or disposition of the shares in exchange for a contribution in kind of all of the monetary remuneration claims to be paid by the Corporation according to the achievement of the relative TSR. In addition, the grant of the shares under this plan is subject to the execution of an agreement between the Corporation and the Eligible Directors with contents equivalent to the allotment agreement pertaining to Restricted Stock, and the shares granted are subject to a transfer restriction accordingly.

(1) Method of calculating the amount of monetary remuneration claims

The amount of monetary remuneration claims for the grant of the shares to be paid to the Eligible Directors (in this (1), including persons who, during the Evaluation Period, come to hold the position of Directors or Executive Officers of the Corporation, or any other position predetermined by the Board of Directors of the Corporation) is calculated by multiplying the number of the shares ultimately to be allotted to the Eligible Directors (the “Final Number of Allotted Shares”) by the value that is not particularly favorable to the Eligible Directors based on the closing price of the Corporation’s common stock on the Tokyo Stock Exchange on the business day immediately preceding the date of the resolution of the Board of Directors to be held after the end of the Evaluation Period determining the issue or disposition of shares for the allotment.

Method of calculating the Final Number of Allotted Shares

1- The Final Number of Allotted Shares shall be calculated by multiplying the number of reference units corresponding to the reference amounts determined by the Board of Directors in advance for each position by the ratio corresponding to the degree of achievement of the relative TSR during the Evaluation Period as follows:

Final Number of Allotted Shares = the number of reference units multiplied by the following ratio

2- The ratio shall be determined according to the achievement of relative TSR as follows:

Relative TSR	Ratio
150% or above	150%

50% or above and below 150%	Same percentage as relative TSR
Below 50%	0%

Note, however that if the Corporation's TSR is 100% or below, the maximum shall be 100% even when the relative TSR is 100% or above.

3- Relative TSR is calculated using the following formula by which the Corporation's Total Shareholder Return (TSR) for the Evaluation Period is compared with the TOPIX (including dividends) growth rate for the same period.

$$\text{Relative TSR} = \frac{\text{the Corporation's TSR}}{\text{TOPIX (including dividends) growth rate}} = \frac{(B + C) / A}{E / D}$$

A: The average of the closing price of the Corporation's common stock on the Tokyo Stock Exchange on each day for the three months immediately preceding the day before the first date (inclusive) of the Evaluation Period

B: The average of the closing price of the Corporation's common stock on the Tokyo Stock Exchange on each day for the three months immediately preceding the last date (inclusive) of the Evaluation Period

C: The total amount of dividends per share of the Corporation's stock corresponding to the dividend record date during the Evaluation Period

D: The average of the closing price of the TOPIX (including dividends) on the Tokyo Stock Exchange on each day for the three months immediately preceding the day before the first date (inclusive) of the Evaluation Period

E: The average of the closing price for the TOPIX (including dividends) on the Tokyo Stock Exchange on each day for the three months immediately preceding the last date (inclusive) of the Evaluation Period

(2) Terms and conditions of allotment of the shares to Eligible Directors

The Corporation will allot the shares of the Final Number of Allotted Shares to the Eligible Directors after the end of the Evaluation Period if the Eligible Directors meet all of the requirements in the following items or if the Board of Directors of the Corporation deems it necessary to achieve the purpose of the TSR-linked Performance Share Units Plan:

- (i) The Eligible Directors held the positions of Director or Executive Officer of the Corporation, or other positions predetermined by the Board of Directors of the Corporation on an ongoing basis during the Evaluation Period; and
- (ii) There was no certain misconduct as determined by the Board of Directors of the Corporation.

If the Eligible Directors resign or retire from their positions prescribed in advance by the Board of Directors of the Corporation due to expiration of their terms of office, death, or other justifiable reasons during the Evaluation Period, the Corporation may reasonably adjust the number of the shares to be allotted to those who resigned or retired (or their successors in the event of resignation or retirement due to death) in light of such factors as their terms of office.

4- The maximum total amount of remuneration and other payments for Directors and that for Audit & Supervisory Board Members for and after FY2023
