^{*4} The assumptions in the forecasts of consolidated earnings, including the further spread of COVID-19 and when the pandemic might end, have not changed from those announced on May 7, 2020. At the end of the second quarter, the Company plans to reassess the impact of COVID-19 and the recovery trend of the global economy in the second half of FYE 3/2021 and beyond.

(Assumptions announced on May 7, 2020)

Forecasts for FYE 3/2021 and March 31, 2021 are based on the assumption that although the spread of COVID-19 would peak during the first half of FYE 3/2021 and henceforth gradually end, ample amount of time would be required for the global economy to return to a recovery trend. Specifically, it is assumed that the recovery will be moderate even after the second half of FYE 3/2021 and the impact of economic stagnation will remain until FYE 3/2022.
